

I LOVE ECO ESSENTIALS

Quality? Sustainability? Style? Why choose – we've gone for all 3!

iLoveEcoEssentials is a simple, sustainable product line – made for hotels by hotel professionals.

We understand what's important for you, and have left no stone untouched. **Travelers of the future** are becoming more and more aware of the climate challenges connected to traveling, and are demanding **responsible alternatives** from their hotels of choice. Today's traveler wants to lie back and enjoy with a clean conscience & good feeling.

We provide a **full-circle benefit** for everyone – guests, hotel and environment.

'PUT YOUR BEST
FOOT FORWARD'

ECOCERT sets the standard for natural and organic cosmetics worldwide – ensuring sustainability, environmentally friendly processes and products formulated without harsh chemicals. To ensure environmentally friendly cosmetic products, the ECOCERT standard demands that the ingredients are derived from renewable resources and manufactured by using environmentally friendly processes. ECOCERT therefore checks the absence of, parabens, silicon, nanoparticles, phenoxyethanol, animal-derived ingredients (unless it's naturally produced by them: milk, honey, etc.) and synthetic perfumes & dyes.

FSC All our bamboo is FSC (Forest Stewardship Council) certified. FSC is a global organization that sets the standards for what is a responsibly managed forest, both environmentally and socially. It is your assurance that it is made with, or contains, wood that comes from FSC certified forests or from post-consumer waste. FSC forest management certification confirms that the forest is being managed in a way that preserves biological diversity and benefits the lives of local people and workers, while ensuring it sustains economic viability.

BIDH (Association of German Industries and Trading Firms) is a German based organization, their guidelines cover raw materials from plant & mineral, animal protection and they reject use of organic-synthetic dyes, synthetic fragrances, silicones, paraffin and other petroleum-based products.
